

ICT303 PROFESSIONAL ETHICS IN COMPUTING T126

All information in the Subject Outline is correct at the time of approval. KOI reserves the right to make changes to the Subject Outline if they become necessary. Any changes require the approval of the KOI Academic Board and will be formally advised to those students who may be affected by email and via Moodle.

Information contained within this Subject Outline applies to students enrolled in the trimester as indicated

1. General Information

1.1 Administrative Details

Associated HE Award(s)	Duration	Level	Subject Coordinator
Bachelor of Information Technology (BIT)	1 trimester	Level 3	Dr Divya Leekha divya.leekha@koi.edu.au P: +61 (2) 9283 3583 L: 7-11, 11 York St. Consultation: via Moodle or by appointment.

1.2 Core / Elective

Core subject for BIT

1.3 Subject Weighting

Indicated below is the weighting of this subject and the total course points.

Subject Credit Points	Total Course Credit Points
4	BIT (96 Credit Points)

1.4 Student Workload

Indicated below is the expected student workload per week for this subject

No. Timetabled Hours/Week*	No. Personal Study Hours/Week**	Total Workload Hours/Week***
4 hours/week (2 hour Lecture + 2 hour Tutorial)	6 hours/week	10 hours/week

* Total time spent per week at lectures and tutorials

** Total time students are expected to spend per week in studying, completing assignments, etc.

*** Combination of timetable hours and personal study.

1.5 Mode of Delivery Classes will be face-to-face or hybrid. Certain classes will be online (e.g., special arrangements).

1.6 Pre-requisites Successful completion of 48 credit points

1.7 General Study and Resource Requirements

- Dedicated computer laboratories are available for student use. Normally, tutorial classes are conducted in the computer laboratories.
- Students are expected to attend classes with the requisite textbook and must read specific chapters prior to each tutorial. This will allow them to actively take part in discussions. Students should have elementary skills in both word processing and electronic spreadsheet software, such as Office 365 or MS Office.

- Computers and WIFI facilities are extensively available for student use throughout KOI. Students are encouraged to make use of the campus Library for reference materials.
- Students will require access to the internet and email. Where students use their own computers, they should have internet access. KOI will provide access to required software.

Resource requirements specific to this subject: Office 365.

1.8 Academic Advising

Academic advising is available to students throughout teaching periods including the exam weeks. As well as requesting help during scheduled class times, students have the following options:

- Consultation times: A list of consultation hours is provided on the homepage of Moodle where appointments can be booked.
- Subject coordinator: Subject coordinators are available for contact via email. The email address of the subject coordinator is provided at the top of this subject outline.
- Academic staff: Lecturers and Tutors provide their contact details in Moodle for the specific subject. In most cases, this will be via email. Some subjects may also provide a discussion forum where questions can be raised.
- Head of Program: The Head of Program is available to all students in the program if they need advice about their studies and KOI procedures.
- Vice President (Academic): The Vice President (Academic) will assist students to resolve complex issues (but may refer students to the relevant lecturers for detailed academic advice).

2 Academic Details

2.1 Overview of the Subject

This subject will provide an understanding of ethical, legal, social and environmental issues related to the evolution of information technology in society. The topics include the professional code of conduct, intellectual property, privacy, data protection, quality assurance and IT compliance.

2.2 Graduate Attributes for Undergraduate Courses

Graduates of Bachelor courses from King's Own Institute (KOI) will achieve the graduate attributes expected under the Australian Qualifications Framework (2nd edition, January 2013). Graduates at this level will be able to apply a broad and coherent body of knowledge from their major area of study in a range of contexts for professional practice or scholarship and as a pathway for further learning.

King's Own Institute's generic graduate attributes for a bachelor's level degree are summarised below:

	KOI Bachelor Degree Graduate Attributes	Detailed Description
	Knowledge	Current, comprehensive, and coherent and connected knowledge
	Critical Thinking	Critical thinking and creative skills to analyse and synthesise information and evaluate new problems
	Communication	Communication skills for effective reading, writing, listening and presenting in varied modes and contexts and for the transferring of knowledge and skills to a variety of audiences
	Information Literacy	Information and technological skills for accessing, evaluating, managing and using information professionally

	Problem Solving Skills	Skills to apply logical and creative thinking to solve problems and evaluate solutions
	Ethical and Cultural Sensitivity	Appreciation of ethical principles, cultural sensitivity and social responsibility, both personally and professionally
	Teamwork	Leadership and teamwork skills to collaborate, inspire colleagues and manage responsibly with positive results
	Professional Skills	Professional skills to exercise judgement in planning, problem solving and decision making

Across the course, these skills are developed progressively at three levels:

- **Level 1 Foundation** – Students learn the basic skills, theories and techniques of the subject and apply them in basic, standalone contexts
- **Level 2 Intermediate** – Students further develop the skills, theories and techniques of the subject and apply them in more complex contexts, and begin to integrate this application with other subjects.
- **Level 3 Advanced** – Students demonstrate an ability to plan, research and apply the skills, theories and techniques of the subject in complex situations, integrating the subject content with a range of other subject disciplines within the context of the course.

2.3 Subject Learning Outcomes

This is a Level 3 subject.

On successful completion of this subject, students should be able to:

Subject Learning Outcomes	Contribution to Graduate Attributes
a) Apply methods and tools of analysis for identifying and resolving ethical issues using philosophical frameworks	    
b) Discuss professional and ethical responsibilities, including the purpose of codes of ethics for computing professionals	    
c) Evaluate risks and liabilities of computer based systems and the critical characteristics of information	   
d) Analyse legal, social, ethical and security issues in ICT	    

2.4 Subject Content and Structure

Below are details of the subject content and how it is structured, including specific topics covered in lectures and tutorials. Reading refers to the text unless otherwise indicated.

Weekly Planner:

Week (beginning)	Topic covered in each week's lecture	Reading(s)	Expected work as listed in Moodle
Week 1 02 March	Professional Ethics	Ch. 9 (Ethics for the Information Age)	The tutorial class will cover various questions on Professional Ethics, Software Engineering Code of Ethics, analysis of the code, case studies and whistle blowing.
Week 2 09 March	Introduction to ethics	Ch.2 (Ethics for the Information Age)	The tutorial class will cover various questions on Introduction to Ethics, Subjective Relativism, Cultural Relativism, Divine Command Theory, Ethical Egoism, Kantianism, Act Utilitarianism, Rule Utilitarianism, Social Contract Theory, Virtue Ethics.
Week 3 16 March	Networked communication	Ch.3 (Ethics for the Information Age)	The tutorial class will cover various questions on Spam, Internet interactions, Text messaging, Censorship, Freedom of Expression, Children and Inappropriate content, Breaking trust and Internet addictions.
Week 4 23 March	Revision on Ethical theories	Ch.2 (Ethics for the Information Age)	The tutorial class will cover revision questions on Ethical theories.
Week 5 30 March	Privacy	Ch. 5 (Ethics for the Information Age)	The tutorial class will cover various questions on Information Privacy, Information Disclosures, Data Mining, and examples of Consumer Backlash. Assessment 1: Quiz (20%) Summative assessment.
Week 6 07 April (Tue)	Privacy and the government	Ch. 6 (Ethics for the Information Age)	The tutorial class will cover various questions on US Legislation Restricting Information Collection, Information collection by the government, Covert Government Surveillance, US Legislation Authorizing Wiretapping, USA Patriot Act, Regulation of Public and Private databases, Data mining by the Government, National Identification Card, Information Dissemination, and Invasion Ethics.
Week 7 13 April	Computer and network security	Ch. 7 (Ethics for the Information Age)	The tutorial class will cover various questions on Hacking, Malware, Cyber Crime and Cyber Attacks and Online Voting. Assessment 2: Ethical analysis. (Report due Sunday midnight)

Week (beginning)	Topic covered in each week's lecture	Reading(s)	Expected work as listed in Moodle
			Summative assessment worth 20%
Week 8 20 April	Computer reliability	Ch.8 (Ethics for the Information Age)	The tutorial class will cover various questions on Data entry or data retrieval errors, Software and Billing errors, Notable Software Systems Failures, Therac 25, Computer Simulations, Software engineering, Software warranties and Vendor Liability. Assessment 2: In class Presentations
Week 9 28 April (Tue)	Intellectual Property	Ch. 4 (Ethics for the Information Age)	The tutorial class will cover various questions on Intellectual Property rights, Protecting IP, Fair use, new restrictions on use, Peer to peer networks and Cyberlockers, Protection for software, Open-source software, Legitimacy of IP protection for software and creative commons. Professional Ethics, Software Engineering Code of Ethics, analysis of the code, case studies and whistle blowing.
Week 10 04 May	Work and health	Ch.10 (Ethics for the Information Age)	The tutorial class will cover various questions on Automation and Employment, Workplace changes, Globalization, The digital divide, and the Winner-take-all society. Assessment 3: Case study research report. (Report due Sunday midnight). Summative assessment worth 20%
Week 11 11 May	Revision for Case based reflection		
Week 12 18 May	Revision	All Chapters	Assessment 4: In class case scenarios test. (During the tutorial class) Summative assessment worth 40%
Week 13 25 May	Study review week and Final Exam Week		
Week 14 01 June	Examinations Continuing students - enrolments for T226 open		Please see exam timetable for exam date, time and location

Week (beginning)	Topic covered in each week's lecture	Reading(s)	Expected work as listed in Moodle
Week 15 09 June (Tue)	Student Vacation begins New students - enrolments for T226 open		
Week 16 15 June	• Results Released • Review of Grade Day for T126 – see Sections 2.6 and 3.2 below for relevant information. • Certification of Grades NOTE: More information about the dates will be provided at a later date through Moodle/KOI email.		
T226 29 June 2026			
Week 1 29 June	Week 1 of classes for T226		

2.5 Public Holiday Amendments

Please note: KOI is closed on all scheduled NSW Public Holidays.

T126 has Five (5) public holidays that occur during this trimester. Classes scheduled for these public holidays (Calendar Class Date) will be rescheduled as per the table below.

This applies to ALL subjects taught in T126.

Please see the table below and adjust your class timing as required. Please make sure you have arrangements in place to attend the rescheduled classes if applicable to your T126 enrolment.

Classes will be conducted at the same time and in the same location as your normally scheduled class except these classes will be held on the date shown below.

Calendar Class Date	Rescheduled Class Date
03 April 2026 (Friday) 04 April 2026 (Saturday) 06 April 2026 (Monday) 25 April 2026 (Saturday) 27 April 2026 (Monday)	25 May 2026 (Monday) 26 May 2026 (Tuesday) 27 May 2026 (Wednesday)

2.6 Review of Grade, Deferred Exams & Supplementary Exams/Assessments

Review of Grade:

There may be instances when you believe that your final grade in a subject does not accurately reflect your performance against the marking criteria. Section 8 of the *Assessment and Assessment Appeals Policy* (www.koi.edu.au) describes the grounds on which you may apply for a Review of Grade.

If you have a concern about your marks and you are unable to resolve it with the Academic staff concerned, then you can apply for a formal Review of Grade as explained in section 3.2(e) Appeals Process below. Please note the time limits for requesting a review. Please ensure you read the Review of Grade information before submitting an application.

Review of Grade Day:

Final exam scripts will not normally be returned to students. Students can obtain feedback on their exam performance and their results for the whole subject at the Review of Grade Day. KOI will hold the Review of Grade Day for all subjects studied in T126. **The ROG day will be announced at a later date and the students will be notified through Moodle/KOI email.**

Only final exams and whole subject results will be discussed as all other assessments should have been reviewed during the trimester. Further information about Review of Grade Day will be available through Moodle.

If you fail one or more subjects and you wish to consider applying for a Review of Grade you are **STRONGLY ADVISED to** attend the Review of Grade Day. You will have the chance to discuss your final exam and subject result with your lecturer, and will be advised if you have valid reasons for applying for a Review of Grade (see Section 3.2 below and the *Assessment and Assessment Appeals Policy*).

A formal request for a review of grade may not be considered unless you first contact the subject coordinator to discuss the result.

Deferred Exams:

If you wish to apply for a deferred exam because you are unable to attend the scheduled exam, you should submit the Assignment Extension / Exam Deferment Form available by contacting academic@koi.edu.au as soon as possible, *but no later than three (3) working days of the assessment due date*.

If you miss your mid-trimester or final exam there is no guarantee you will be offered a deferred exam.

You must apply within the stated timeframe and satisfy the conditions for approval to be offered a deferred exam (see Section 8.1 of the *Assessment and Assessment Appeals Policy and the Application for Assignment Extension or Deferred Exam Forms*). In assessing your request for a deferred exam, KOI will take into account the information you provide, the severity of the event or circumstance, your performance on other items of assessment in the subject, class attendance and your history of previous applications for special consideration.

Deferred mid-trimester exams will be held before the end of week 9. Deferred final exams will be held on two days during week 1 or 2 in the next trimester. You will not normally be granted a deferred exam on the grounds that you mistook the time, date or place of an examination, or that you have made arrangements to be elsewhere at that time; for example, have booked plane tickets.

If you are offered a deferred exam, but do not attend *you will be awarded 0 marks for the exam*. This may mean it becomes difficult for you to pass the subject. If you apply for a deferred exam within the required time frame and satisfy the conditions you will be advised by email (to your KOI student email address) of the time and date for the deferred exam. Please ensure that you are available to take the exam at this time.

Marks awarded for the deferred exam will be the marks awarded for that item of assessment towards your final mark in the subject.

Supplementary Assessments (Exams and Assessments):

A supplementary assessment may be offered to students to provide a final opportunity to demonstrate successful achievement of the learning outcomes of a subject. *Supplementary assessments are only offered at the discretion of the Board of Examiners*. In considering whether or not to offer a supplementary assessment, KOI will take into account your performance on all the major assessment items in the subject, your attendance, participation and your history of any previous special considerations.

If you are offered a supplementary assessment, you will be advised by email to your *KOI student email address* of the time and due date for the supplementary assessment – supplementary exams will normally be held at the same time as deferred final exams during week 1 or week 2 of the next trimester.

You must pass the supplementary assessment to pass the subject. The maximum grade you can achieve in a subject based on a supplementary assessment is a PASS grade.

If you:

- are offered a supplementary assessment, but fail it;
- are offered a supplementary exam, but do not attend; or
- are offered a supplementary assessment but do not submit by the due date;

you will receive a FAIL grade for the subject.

Students are also eligible for a supplementary assessment for their final subject in a course where they fail the subject but have successfully completed all other subjects in the course. You must have completed all major assessment tasks for the subject and obtained a passing mark on at least one of the major assessment tasks to be eligible for a supplementary assessment.

If you believe you meet the criteria for a supplementary assessment for the final subject in your course, but have not received an offer, complete the *Complaint, Grievance, Appeal Form* and send your form to reception@koi.edu.au. The deadline for applying for supplementary assessment is the Friday of the first week of classes in the next trimester.

2.7 Teaching Methods/Strategies

Briefly described below are the teaching methods/strategies used in this subject:

- *On-campus lectures* (2 hours/week) are conducted in seminar style and address the subject content, provide motivation and context and draw on the students' experience and preparatory reading.
- *Tutorials* (2 hours/week) include class discussion of case studies and research papers, practice sets and problem-solving and syndicate work on group projects. Tutorials often include group exercises and so contribute to the development of teamwork skills and cultural understanding. Tutorial participation is an essential component of the subject and contributes to the development of many of the graduate attributes (see section 2.2 above). Tutorial participation contributes towards the assessment in many subjects (see details in Section 3.1 for this subject). Supplementary tutorial material such as case studies, recommended readings, review questions etc. will be made available each week in Moodle.
- *Online* teaching resources include class materials, readings, model answers to assignments and exercises and discussion boards. All online materials for this subject as provided by KOI will be found in the Moodle page for this subject. Students should access Moodle regularly as material may be updated at any time during the trimester
- *Other contact* - academic staff may also contact students either via Moodle messaging, or via email to the email address provided to KOI on enrolment.

2.8 Student Assessment

Assessment is designed to encourage effective student learning and enable students to develop and demonstrate the skills and knowledge identified in the subject learning outcomes. Assessment tasks during the first half of the study period are usually intended to maximise the developmental function of assessment (formative assessment). These assessment tasks include weekly tutorial exercises (as indicated in the weekly planner) and low stakes graded assessment (as shown in the graded assessment table). The major assessment tasks where students demonstrate their knowledge and skills (summative assessment) generally occur later in the study period. These are the major graded assessment items shown in the graded assessment table.

Final grades are awarded by the Board of Examiners in accordance with KOI's Assessment and Assessment Appeals Policy. The definitions and guidelines for the awarding of final grades within the BIT degree are:

- HD High distinction (85-100%) an outstanding level of achievement in relation to the assessment process.
- DI Distinction (75-84%) a high level of achievement in relation to the assessment process.
- CR Credit (65-74%) a better than satisfactory level of achievement in relation to the assessment process.
- P Pass (50-64%) a satisfactory level of achievement in relation to the assessment process.
- F Fail (0-49%) an unsatisfactory level of achievement in relation to the assessment process.

Provided below is a schedule of formal assessment tasks and major examinations for the subject.

Assessment Type	When assessed	Weighting	Learning Outcomes Assessed
Assessment 1: Quiz	Weeks 5	20%	a, b
Assessment 2: Ethical analysis (1,500 words) (Summative)	Week 7 -Report Week 8- Presentation	20%	a, b
Assessment 3: Case study report with pre-recorded presentation (2,000 words) (Summative)	Week 10	20%	b, c, d
Assessment 4: In class case scenarios test	Case scenario test in Week 12 tutorial class	40%	a, b, c, d

Requirements to Pass the Subject:

To gain a pass or better in this subject, students must gain a *minimum of 50%* of the total available subject marks.

2.9 Prescribed and Recommended Readings

Provided below, in formal reference format, is a list of the prescribed and recommended readings.

Prescribed Texts:

Academic Paper on: The Development of A code of Ethics: IT Challenges

http://www.academia.edu/3167989/The_Development_of_A_code_of_Ethics_IT_Challenges

Useful Websites:

The following industry websites are useful introductory sources covering a range of information useful for this subject.

1. Australian Computer Society (ACS). (n.d.). *Professional ethics, conduct, and complaints*. <https://www.acs.org.au/memberships/professional-ethics-conduct-and-complaints.html> [
2. **Association for Computer Machinery**: <https://www.acm.org/code-of-ethics>
3. General Data Protection Regulation (GDPR). (n.d.). *General Data Protection Regulation (GDPR) – Official Legal Text*. [online] Available at: <https://gdpr.eu/>
4. Ethics in AI: <https://standards.ieee.org/initiatives/autonomous-intelligence-systems/>
5. Computer Professionals for Social Responsibility (CPSR): <http://cpsr.org/>

Others:

The Hastings Center - Ethics of Technology: <https://www.thehastingscenter.org/>

The Markkula Center for Applied Ethics: <https://www.scu.edu/ethics/>

The suggested websites are useful resources covering a range of information relevant to this subject. However, most are not considered to be sources of Academic Peer Reviewed theory and research. If your assessments require **academic peer reviewed journal articles** as sources, you need to access such sources using the Library database, Ebscohost, or Google Scholar. Please ask staff in the Library if you are unsure how to access Ebscohost. Instructions can also be found in Moodle. An important area of this subject involves the skill of finding appropriate ethical, social and legal cases. During lectures and tutorials, students will be informed where cases may be found. Students are also expected to use the library and the internet.

3. Assessment Details

3.1 Details of Each Assessment Item

The assessments for this subject are described below. The description includes the type of assessment, its purpose, weighting, due date and submission requirements, the topic of the assessment, details of the task and detailed marking criteria, including a marking rubric for essays, reports and presentations. Supplementary assessment information and assistance can be found in Moodle.

KOI expects students to submit their own original work in both assignments and tests. There are no group assessments for this unit. All assessments are individual assessments. Students are prohibited to use AI tools for all the assessments of this unit. If a case is found where student uses AI tools, then it will be considered as Academic misconduct.

Marking guides for assessments follow the assessment descriptions. Students should compare final drafts of their assessment against the marking guide before submission.

Assessment 1

Assessment type: In-Class Quiz - Individual assessment.

Purpose: This assessment will allow students to demonstrate their understanding of the ACS Code of Professional Conduct and begin applying ethical principles to real-life and computing-related situations. It also provides a foundation for Assessment 2 (Ethical Analysis in Computing). This quiz will consist of short answer and reflection questions. This assessment contributes to learning outcomes a and b.

Value: 20%

Due date: In tutorial class of Week 5.

Assessment topic: Professional ethics in computing: ACS Code of Professional Conduct and ethical reflection (Topics from Weeks 1–4).

Submission requirements details: Quiz will be conducted **in class** and completed online via Moodle.

- Attend their enrolled class **in person** to do the quiz, unless their enrollment allows online attendance.
- Students with online enrollment must ensure their computer has a working **safe exam browser** (SEB) and working camera.

Task details: This quiz will consist of two questions:

1. Application question: Apply the ACS Code of Professional Conduct
2. Reflection question: Reflect on ethical principles to real-life or work experience.

Length: 30 minutes during Week 5 tutorial class.

Assessment 1 Marking Rubric: Quiz

Value 20%

Criteria	Fail (0–49%)	Pass (50–64%)	Credit (65–74%)	Distinction (75–84%)	High Distinction (85–100%)
Q1: Application of ACS Code (10 marks)	No relevant ACS principles identified; no explanation provided	One relevant principle identified with limited explanation	At least one relevant principle applied to each allocated question with clear explanation	Multiple relevant principles applied with good justification	Comprehensive application of principles with excellent, specific justification showing deep understanding
Q2: Reflection on Ethics in Life/Work (10 marks)	No reflection or irrelevant response; no example provided	Basic reflection with vague or unrelated example	Clear reflection with relevant example; basic strategy suggested	Thoughtful reflection, strong example, clear strategy for improvement	Deep, insightful reflection with detailed example and realistic strategies showing maturity and self-awareness

Assessment 2

Assessment type: Ethical analysis – individual assignment (1,500 words)

Purpose: In this assessment, students will apply the methods and tools for identifying and analysing ethical issues in the context of ethical philosophies and theories learned in this unit. This assessment contributes to learning outcomes a and b. Students will also be presenting their analysis in their Week 8 tutorial class to the tutor.

Value: 20% **Due Date:** Week 7 Sunday midnight, In class face to face presentations in Week 8 tutorial class, unless enrollment allows online attendance.

Assessment Topic: Students need to identify **two questions** that are ethical and moral issues in the field of ICT. Students must perform an ethical analysis of the identified topics using any **four ethical theories** covered in this unit.

Task details: Students need to conduct their research and identify the questions for ethical analysis and academic discussion. Students need to identify at least two (2) questions that are ethical and moral issues in the field of ICT/IT. The topics can be found using online research. For example, you can look up the most recent ICT related ethical and moral issues reported in the news articles. Students can use the following **search strings** to find and identify the questions to be ethically analysed,

- Ethical and moral issues in IT

- Ethical and moral issues in ICT
- Moral issues for IT professionals
- Ethical and moral issues in technology
- Top 10 technology and ethics stories of 2019/2020/2021/2022
- Most famous court cases in technology

Students need to remember that the objective is to academically discuss, analyse and assess the selected questions using any four (4) ethical theories studied in this unit. Any ethical theories studied in the unit can be used and same theories can be reused for both topics as well. Students are encouraged to also incorporate their own opinion while ethically assessing the questions, but it should be supported with academic arguments and ethical concepts. Students will write a business-style research report of approximately 1500 words.

The suggested report structure is as follows,

- Title Page
- Table of contents
- Executive summary
- Introduction
- Question 01: Ethical analysis using **any four** ethical theories
- Question 02: Ethical analysis using **any four** ethical theories
- Conclusion
- References

Submission requirements details:

This task needs to be submitted by Week 7 Sunday midnight on Moodle. Students need to submit an electronic copy in Microsoft Word via Moodle in the TurnItIn submission link . Students need to prepare not more than 5 presentation slides. In class face to face presentations will be conducted by your tutor in Week 8 tutorial class. A separate link to submit only the slides would be made available on moodle. Please refer to the subject outline for information regarding late submissions, extensions, special consideration, and plagiarism.

Assessment 2 Marking Rubric: Ethical Analysis

Value 20%

Criteria	Fail (0 – 49%)	Pass (50 – 64%)	Credit (65 – 74%)	Distinction (75 – 84%)	High Distinction (85 – 100%)
Evidence of research 15% 3 marks	Less than 6 relevant titles read.	At least 6-8 relevant titles read.	At least 8-12 relevant titles read.	More than 12 relevant titles read.	More than 15 relevant titles read.
Relevance of content 15% 3 marks	Incomplete analysis and no clear identification of relevant ethical issues.	Satisfactory analysis and identification of some relevant ethical issues.	Accurate analysis and identification of most relevant ethical issues.	Accurate analysis and identification of all relevant ethical issues.	Compelling analysis and identification of all relevant ethical issues.
Application of concepts and principles 15% 3 marks	Analysis is not supported. Assumptions made are not noted.	Analysis is minimally supported. Assumptions made are not all noted.	Analysis is well supported. All Assumptions made are noted.	Analysis is very well supported. All Assumptions made are noted.	Analysis is extremely well supported. All Assumptions made are noted and explained.
Clarity of structure 10% 2 marks	The structure of the report is unclear and not logical. It does not address the brief. Use of headings unsatisfactory.	The structure of the report is logical in parts. It addresses most of the assignment brief. Use of headings satisfactory	Report structure is easy to read and logical, directly addressing assignment brief. Suitable headings used.	Report structure is easy to read and logical, directly addressing the assignment brief. Clear headings used throughout.	Report structure is easy to read and compelling, directly addressing the assignment brief. Relevant headings used throughout.
Writing 10% 2 marks	A large number of spelling, punctuation or grammatical errors.	Several spelling, punctuation or grammatical errors.	Some spelling, punctuation or grammatical errors.	Minor spelling, punctuation or grammatical errors.	No spelling, punctuation or grammatical errors.
Correct referencing 15% 3 marks	Referencing not done to standard. Overuse of direct quotes. Range of sources used is not relevant and/or not documented.	No more than 4 errors. Direct quotes over-used. Sources documented.	No more than 2 referencing errors. Direct quotes used sparingly. Sources documented.	No reference errors. Direct quotes used sparingly. Sources documented.	No reference errors. Direct quotes used sparingly and only when needed. Sources documented.
Presentation Value 20% 4 marks	No presentation given or presentation does not summarize the report	Poor summary of the report with limited audience engagement	Adequate summary of the report with some audience engagement	Succinct summary of the report with good audience engagement	Succinct summary of the report that fully engages the audience and create a sense of presence, innovative presentation with good audience engagement

Assessment 3

Assessment type: Case Study Report - individual assessment (2,000 words)

Assessment Purpose: Students will be identifying a topic for their research. Based on the topic identified and chosen by the student, they will write a case study style report to highlight the emerging technologies in the field of ICT and extensively discuss their applications, benefits, risks, and possible ethical challenges. Furthermore, students need to submit their pre-recorded presentation link on the last page of their report by Sunday midnight of week 10.

Value: 20% **Due Date:** Week 10

Task Details:

Step 1: Research and Identify the topic for case study

Students need to conduct their research and identify the topic on which they need to write a comprehensive report. The identified topic should have the following properties:

- The selected topic should be related to Information and Communication Technologies (ICT) and focus on the Australian Code of Ethics and/ or EU General Data Protection Regulation (GDPR) and Australia's Privacy Principles.
- It should be a case-study topic i.e., analysis and discussion on the specific situation, scenario, or instance.

Following are some example areas on which students can base their case study:

1. Regulatory Compliance of Cloud Backup and Disaster Recovery Services under GDPR and APP
2. Ethical Management of Customer Behavioural Data in FinTech Applications under GDPR and APP
3. Privacy Engineering Practices in Agile Software Development: GDPR and APP Alignment
4. Incident Response and Regulatory Reporting Obligations after Cyberattacks under GDPR and APP
5. User Preference and Cookie Management Systems: Compliance Challenges under GDPR and APP
6. AI-Driven Recommendation Engines in Online Retail: Privacy and Accountability under GDPR and APP
7. Workplace Surveillance Software in Remote Work Environments: GDPR and APP Implications
8. International SaaS Providers and Data Residency Compliance under GDPR and APP
9. Data Accuracy and Integrity Management in Mobile Health Applications under GDPR and APP
10. Influencer Marketing Platforms and Third-Party Data Handling: GDPR and APP Compliance Issues
11. Facial Recognition in Access Control Systems: Ethical and Legal Constraints under GDPR and APP
12. Smart Home Technologies and Consumer Data Protection Obligations under GDPR and APP

13. Chatbots and Virtual Assistants in Customer Service: Privacy Responsibilities under GDPR and APP
14. Vendor Risk Management and Contractual Data Protection Clauses under GDPR and APP
15. Predictive Analytics in Insurance Platforms: Transparency and Fairness under GDPR and APP
16. Protection of Student and Parent Data in Learning Management Systems under GDPR and APP
17. Operationalising the Right to Be Forgotten in Enterprise Information Systems under GDPR and APP
18. End-of-Life Data Handling in Cloud-Based Infrastructure Services under GDPR and APP
19. Integrating Privacy Impact Assessments into DevSecOps Pipelines under GDPR and APP
20. Default Privacy Controls in Wearable Technology Ecosystems: Regulatory Challenges under GDPR and APP

If you have any questions, you can discuss this with the tutor. Students are also encouraged to use the allocated tutorial time to discuss their progress and get feedback from their tutor.

Step 2: Research for chosen topic

Once students have identified their topic, they can use only scholarly databases to search for related published academic articles. Students should prioritise the high impact factor, peer-reviewed and well renowned publication platforms to choose the papers. These research papers can also be used as references in the report. Following are some recommended publishers where students can find good research papers related to your chosen topic,

- IEEE Explore (<https://ieeexplore.ieee.org/Xplore/home.jsp>)
- Elsevier Journals (<https://www.elsevier.com/en-au>)
- Springer (<https://www.springeropen.com/>)
- Google Scholar (<https://scholar.google.com.au/>)

Step 3: Writing a case study report

Students must submit their own original work only using the turnitin link on moodle. Students can be creative in writing their case study report and planning report structure. A suggested (sample) report structure and content is given below for student reference,

- Introduction of the Topic
- Importance and applications
- Challenges, issues, or problems associated
- Interesting Case Studies/examples related to the topic
- Benefits and Harms Analysis
- Critical Discussion on the topic
- Different perspectives on the topic (opinions from different sides)
- Future advancements and progress
- Conclusions (You can include your own final comments/opinion on the topic you are debating)

Step 4: Report submission

The case study report must be submitted by Week 8 midnight on Moodle (Turnitin link). Please submit an electronic copy only in Microsoft word or pdf format. Students are required to prepare no more than five presentation slides and pre-record their presentation. The recording link must be included on the final page of the report.

Submission requirements details:

This task needs to be submitted on Moodle by Week 10 Sunday midnight. Students need to submit an electronic copy in Microsoft Word of the report (TurnItIn link). The recording link needs to be placed on the last page of the same report. Please refer to the subject outline for information regarding late submissions, extensions, special consideration, and plagiarism.

Assessment 3 Marking Rubric: Case Study Report

Value 20%

Criteria	Fail (0 – 49%)	Pass (50 – 64%)	Credit (65 – 74%)	Distinction (75 – 84%)	High Distinction (85 – 100%)
Evidence of research 15% 3 marks	Less than 6 relevant titles read.	At least 6-8 relevant titles read.	At least 8-12 relevant titles read.	More than 12 relevant titles read.	More than 15 relevant titles read.
Relevance of content 15% 3 marks	Incomplete analysis and no clear identification of relevant ethical issues.	Satisfactory analysis and identification of some relevant ethical issues.	Accurate analysis and identification of most relevant ethical issues.	Accurate analysis and identification of all relevant ethical issues.	Compelling analysis and identification of all relevant ethical issues.
Application of concepts and principles 15% 3 marks	Analysis is not supported. Assumptions made are not noted.	Analysis is minimally supported. Assumptions made are not all noted.	Analysis is well supported. All Assumptions made are noted.	Analysis is very well supported. All Assumptions made are noted.	Analysis is extremely well supported. All Assumptions made are noted and explained.
Clarity of structure 10% 2 marks	The structure of the report is unclear and not logical. It does not address the brief. Use of headings unsatisfactory	The structure of the report is logical in parts. It addresses most of the assignment brief. Use of headings satisfactory	Report structure is easy to read and logical, directly addressing assignment brief. Suitable headings used.	Report structure is easy to read and logical, directly addressing the assignment brief. Clear headings used throughout.	Report structure is easy to read and compelling, directly addressing the assignment brief. Relevant headings used throughout.
Writing 10% 2 marks	A large number of spelling, punctuation or grammatical errors.	Several spelling, punctuation or grammatical errors.	Some spelling, punctuation or grammatical errors.	Minor spelling, punctuation or grammatical errors.	No spelling, punctuation or grammatical errors.
Correct referencing 15% 3 marks	Referencing not done to standard. Overuse of direct quotes. Range of sources used is not relevant and/or not documented.	No more than 4 errors. Direct quotes over-used. Sources documented.	No more than 2 referencing errors. Direct quotes used sparingly. Sources documented.	No reference errors. Direct quotes used sparingly. Sources documented.	No reference errors. Direct quotes used sparingly and only when needed. Sources documented.

Presentation Value 20% 4 marks	No recording submitted or presentation does not explain the report; narration unclear; slides missing or confusing; technical problems make it hard to follow.	Recording submitted but summary is poor; narration weak or hard to understand; slides or visuals unclear; minor technical problems.	Summary is adequate; narration mostly clear; slides mostly relevant and easy to follow; minor technical issues.	Clear and concise summary; narration clear and easy to follow; slides relevant and well-integrated; good technical quality.	Excellent and complete summary; narration clear, confident, and easy to understand; slides very clear, creative, and enhance understanding; excellent technical quality throughout.

Assessment 4

Assessment type: In-class Case scenarios Test (Total 600 words +/- 10%)

Assessment Purpose: This is a progressive assessment component. This is in progression of assessment 3. In Assessment 4, students will be provided some case scenario based questions in a test format. The purpose is to test their understanding of ethical, social, legal and professional issues in ICT covered in this subject. This assessment contributes specifically to learning outcomes a, b, c and d.

Value: 40%

Due Date: Test conducted in Week 12 tutorial class.

Duration: 50 mins + 10 mins reading and file submission time

Topic: The test may cover content from any part of the subject.

Task Details: Students will be expected to answer five short-answer case scenario based questions. This test will focus on all aspects of the subject. Answers will require correct identification of ethical, social and legal issues as well as analysis of ethical scenarios covered in this subject. Students are required to prepare from both the lecture and tutorial material from Weeks 1 -11.

Submission requirements details: Students need to submit an electronic copy in Microsoft Word via moodle through a TurnItIn link. The document needs to be submitted in the link within 60 minutes of the test in their tutorial class time. Students are prohibited from using internet searches or AI tools during the test. There are no late submissions accepted. If there is no file submitted, students will not get any marks. Please refer to the **subject** outline for information regarding extensions, special consideration and plagiarism.

Marking Rubric for Assessment: 4

Value: 40%

Criteria	Fail (0 – 49%)	Pass (50 – 64%)	Credit (65 – 74%)	Distinction (75 – 84%)	High Distinction (85 – 100%)
Understanding of the Case (5 marks)	Limited understanding of the case. Key issues are missing or poorly addressed.	Demonstrates a basic understanding of the case. Some key issues are identified, but analysis is superficial.	Shows a good understanding of the case. Key issues are identified but may lack full depth in addressing them.	Demonstrates a strong understanding of the case. Most key issues are identified and effectively addressed with depth.	Demonstrates a comprehensive understanding of the case. Key issues are identified, prioritized, and addressed with exceptional depth and insight.
Application of Concepts (15 marks)	Little to no application of relevant theories or concepts. Responses lack relevance or coherence.	Demonstrates limited application of relevant theories or concepts. Some responses may lack connection to the case.	Applies some relevant concepts, though accuracy and relevance may be inconsistent or partial.	Applies relevant theories or concepts accurately with minor gaps or inconsistencies.	Effectively applies relevant theories, concepts, and principles to the case with exceptional accuracy and reasoning.
Analysis and Problem-Solving (15 marks)	Analysis is weak or absent. Solutions, if any, are unclear, impractical, or unsupported.	Analysis is simplistic or lacks clarity. Solutions may be present but are weak or unjustified.	Analysis is clear but lacks depth or some connections to the case. Solutions are adequate but may not be fully justified.	Provides a strong and logical analysis with well-justified solutions, though lacking some innovation or depth.	Analysis is logical, thorough, and demonstrates advanced critical thinking. Solutions are practical, innovative, and strongly justified.
Structure (5 marks)	Responses are unclear, disorganized, and riddled with errors.	Responses are understandable but may lack clarity or structure, with frequent errors.	Responses are clear but may have noticeable grammatical errors or issues with organization.	Responses are well-structured and mostly clear, with minimal grammatical or structural issues.	Responses are exceptionally clear, well-structured, and logically organized. Writing is free of grammatical errors and flows seamlessly.

3.2 General information about assessment

a) Late Penalties and Extensions

An important part of business life and key to achieving KOI's graduate outcome of Professional Skills is the ability to manage workloads and meet deadlines. Completing assessment tasks on time is a good way to master these habits.

Students who miss mid-trimester tests and final exams without a valid and accepted reason may not be granted a deferred exam and will be awarded 0 marks for the assessment item. Assessment items which are missed or submitted after the due date/time will attract a penalty unless there is a compelling reason (see below). These penalties are designed to encourage students to develop good time management practices, and to create equity for all students.

Any penalties applied will only be up to the maximum marks available for the specific piece of assessment attracting the penalty.

Late penalties, granting of extensions and deferred exams are based on the following:

In Class Tests and Quizzes (excluding Mid-Trimester Tests)

- Generally, extensions are not permitted. A make-up test may only be permitted under very special circumstances where acceptable supporting evidence of illness, hardship or unavoidable problems preventing completion of the assessment is provided (see section (b) below). The procedures and timing to apply for a make-up test (only if available) are as shown in the section *Applying for an Extension* (see below).
- Missing a class test will result in 0 marks for that assessment item unless the above applies.

Written Assessments and Video Assessments

- There is a late penalty of *5% of the total available marks* per calendar day unless an extension is approved (see *Applying for an Extension* section below).

Presentations

- Generally, extensions are not permitted. Missing a presentation will result in 0 marks for that assessment item. The rules for make-up presentations are the same as for missing in-class tests (described above).

For group presentations, if serious circumstances prevent some members of the group from participating, the members of the group who are present should make their contributions as agreed. If a make-up presentation is approved, the other members of the group will be able to make their individual presentation later and will be marked according to the marking rubric. A video presentation may be used to facilitate the process.

Mid-Trimester Tests and Final Exams

If students are unable to attend mid-trimester tests or final exams due to illness, hardship or some other unavoidable problem (acceptable to KOI), they must:

- Complete the Assignment Extension / Exam Deferment Form available by contacting academic@koi.edu.au as soon as possible, *but no later than three (3) working days after the exam date*.
- Provide acceptable documentary evidence (see section (b) below).
- Agree to attend the deferred exam as set by KOI if a deferred exam is approved.

Deferred exam

- There will only be one deferred exam offered.
- Marks obtained for the deferred exam will be the marks awarded for that assessment item.
- If you miss the deferred exam you will be awarded 0 marks for the assessment item. This may mean you are unable to pass the subject.

b) Applying for an Extension

If students are unable to submit or attend an assessment when due, they must

- Complete the Assignment Extension / Exam Deferment Form available by contacting academic@koi.edu.au as soon as possible, *but no later than three (3) working days of the assessment due date*.
- Provide acceptable documentary evidence in the form of a medical certificate, police report or some other appropriate evidence of illness or hardship, or a technician's report on problems with computer or communications technology, or a signed and witnessed statutory declaration explaining the circumstances.
- Students and lecturers / tutors will be advised of the outcome of the extension request as soon as practicable.

Please remember there is no guarantee of an extension being granted, and poor organisation is not a satisfactory reason to be granted an extension.

c) Referencing and Plagiarism

Please remember that all sources used in assessment tasks must be suitably referenced.

Failure to acknowledge sources is plagiarism, and as such is a very serious academic issue. Students plagiarising run the risk of severe penalties ranging from a reduction in marks through to 0 marks for a first offence for a single assessment task, to exclusion from KOI in the most serious repeat cases. Exclusion has serious visa implications. The easiest way to avoid plagiarising is to reference all sources.

Harvard referencing is the required method – in-text referencing using Author's Surname (family name) and year of publication. A Referencing Guide, "Harvard Referencing", and a Referencing Tutorial can be found on the right-hand menu strip in Moodle on all subject pages.

An effective way to reference correctly is to use *Microsoft Word's* referencing function (please note that other versions and programs are likely to be different). To use the referencing function, click on the References Tab in the menu ribbon – students should choose *Harvard*.

Authorship is also an issue under plagiarism – KOI expects students to submit their own original work in both assessment and exams, or the original work of their group in the case of a group project. All students agree to a statement of authorship when submitting assessments online via Moodle, stating that the work submitted is their own original work.

The following are examples of academic misconduct and can attract severe penalties:

- Handing in work created by someone else (without acknowledgement), whether copied from another student, written by someone else, or from any published or electronic source, is fraud, and falls under the general Plagiarism guidelines.
- Copying / cheating in tests and exams is academic misconduct. Such incidents will be treated just as seriously as other forms of plagiarism.
- Students who willingly allow another student to copy their work in any assessment may be considered to assisting in copying/cheating, and similar penalties may be applied.

Where a subject coordinator considers that a student might have engaged in academic misconduct, KOI may require the student to undertake an additional oral exam as a part of the assessment for the subject, as a way of testing the student's understanding of their work.

Further information can be found on the KOI website.

d) Reasonable Adjustment

The Commonwealth Disability Discrimination Act (1992) makes it unlawful to treat people with a disability less fairly than people without a disability. In the context of this subject, the principle of Reasonable Adjustment is applied to ensure that participants with a disability have equitable access to all aspects of the learning for the subject. For assessment, this means that barriers to their demonstrating competence are removed wherever it is reasonably practical to do so.

Examples of reasonable adjustment in assessment may include:

- provision of an oral assessment, rather than a written assessment
- provision of extra time
- use of adaptive technology.

The focus of the adjusted assessment should be on enabling the student to demonstrate achievement of the learning outcomes for the subject, rather than on the method of assessment.

e) Appeals Process

Full details of the KOI *Assessment and Assessment Appeals Policy* may be obtained in hard copy from the Library, and on the KOI website www.koi.edu.au under *Policies and Forms*.

Assessments and Mid-Trimester Exams:

Where students are not satisfied with the results of an assessment, including mid-trimester exams, they have the right to appeal. The process is as follows:

- Discuss the assessment with their tutor or lecturer – students should identify where they feel more marks should have been awarded – students should provide valid reasons based on the marking guide provided for the assessment. Reasons such as “*I worked really hard*” are not considered valid.
- If still not satisfied, students should complete an Application for Review of Assessment Marks form, clearly explaining the reasons for seeking a review. This form is available from the KOI website under *Policies and Forms* and is also available at KOI Reception (Kent St, Market St and O’Connell St). The completed Application for Review of Assessment Marks form should be submitted as explained on the form with supporting evidence attached to academic@koi.edu.au.
- The form must be submitted within *ten (10) working days* of the return of the marked assessment, or within *five (5) working days* after the return of the assessment if the assessment is returned after the end of the trimester.

Review of Grade – whole of subject and final exams:

Where students are not satisfied with the results of the whole subject or with their final exam results, they have the right to request a Review of Grade – see the *Assessment and Assessment Appeals Policy* for more information.

An *Application for Review of Grade/Assessment Form* (available from the KOI Website under *Policies and Forms* and from KOI Reception at Kent St, Market St and O’Connell St) should be completed clearly explaining the grounds for the application. The completed application should be submitted as explained on the form, with supporting evidence attached to academic@koi.edu.au.
