

- extensibility.
- How Secure Boot Works
Explain the use of digital signatures, certificate authorities, and how bootloaders are verified during startup.
- Role of TPM (Trusted Platform Module)
Describe how TPM contributes to Secure Boot and OS-level security (e.g., storing encryption keys, platform integrity).
- Secure Startup in Operating Systems
Illustrate how operating systems (e.g., Windows, Linux) integrate Secure Boot and TPM to protect early-stage execution.
- Real-World Use Case (choose one platform)
Example: Windows + Secure Boot + TPM + BitLocker (or a Linux example such as shim + GRUB + Secure Boot).
- Challenges and Limitations
Discuss common trade-offs such as dual-boot restrictions, firmware updates, or secure boot bypass methods.

Important Notes:

- Utilize Diverse Resources: You should incorporate a variety of resources, including internet sources, books, academic journals, and conference papers. Ensure that these resources are reliable and relevant to your topic.
- Organize Your Report Effectively: Structure your report in a clear and logical manner. Use the Key Points as a guide to ensure that your content is comprehensive and easy to follow.
- Prepare for a Presentation: Be ready to present a concise summary of your report to the entire class during the tutorial session in either week 10 or 11. Please note that you do not need to submit any files for the presentation.
- Cite Your Sources: Ensure that all information and ideas you present are supported by credible sources. If you reference any external material, including AI-generated content, proper citations and references are required. This is crucial for maintaining academic integrity.
- Use Harvard Referencing: The Harvard referencing style is required for this assignment (APA is also acceptable). Make sure your citations are accurate and complete.
- Evaluate the Timeliness and Credibility of Sources: Make sure your resources are up-to-date and published within a relevant timeframe. Validate the authenticity of your sources, and avoid relying on questionable materials such as blogs or publicly edited online sources like wikis.

Coursebook:

Assessment 4 Marking Rubrics – Report (15%):

Criteria	Unsatisfactory	Satisfactory	Effective	Excellent	Exceptional	15 %
Content	Fail (0 – 49%)	Pass (50 – 64%)	Credit (65 – 74%)	Distinction (75 – 84%)	High Distinction (85 – 100%)	
Depth of Content	The explanation is sufficiently inaccurate, incomplete, or confusing that the reader gains little information from the report. It appears that little attempt has been made to help the reader understand the material.	Some difficulty in reading, structure lacking in some parts	Well written, structure not totally clear	Well written and structured.	An accurate and complete explanation of key concepts and theories is made, drawing on relevant literature. Enough detail is presented to allow the reader to understand the content and make judgments about it. In addition, applications of theory are included to illuminate issues. Readers gain insights.	3
Accuracy of Content	Does not directly answer question	Directly answers most of the question	Directly answers the question	Directly answers the question giving additional insights	Information (names, facts, etc.) included in the report is consistently accurate.	3
Clarity of Purpose	No support for the project's objectives taken in the answer.	Provides some support for the project's objectives taken.	The project's objectives are presented. The motivation for pursuing the project and its relevance are addressed. The discussion is reasonably clear but not compelling.	Provides excellent level of support for project's objectives taken.	The project's objectives are clearly stated. The motivation for pursuing the project and its relevance are clearly and persuasively established by relating the project to current engineering problems.	3
Depth of Analysis	No analysis presented	Analysis based on some argument	Analysis based on sound argument	Analysis based on an extensive argument	Results are carefully and objectively analysed. Interpretations are made using appropriate equations, models, or theories.	3
Use of Language: Word Choice, Grammar, and Sentence Structure	Very little knowledge of subject matter demonstrated.	Adequate knowledge of subject matter demonstrated.	Sound knowledge of subject matter demonstrated.	High level of knowledge of subject matter demonstrated.	High level of knowledge of subject matter and synthesis with theory demonstrated	3

Marking Rubrics: Presentation (10%)

Criteria	Fail (0 – 49%)	Pass (50 – 64%)	Credit (65 – 74%)	Distinction (75 – 84%)	High Distinction (85 – 100%)	10%
Visual appeal	There are many errors in spelling, grammar, and punctuation, the slides are difficult to read and contain too much text, poor choice of fonts and colours, no or little visual appeal.	There are errors in spelling, grammar, and punctuation. Too much text on many slides. Minimal effort made to make slides appealing	There may be some errors in spelling, grammar and punctuation. Too much text on two or more slides. Significant visual appeal.	There are no errors in spelling, grammar, and punctuation. Information is clear and concise on each slide. Visually appealing and engaging.	No errors, engaging and professional looking presentation	2
Content	The presentation provides a brief look at the topic but many questions are left unanswered. Majority of information is irrelevant and significant points left out.	The presentation is informative but several elements are unanswered. Much of the information irrelevant, coverage of some of major points.	The presentation is a good summary of the topic. Most important information covered; little irrelevant information.	The presentation is a concise summary of the topic with all questions answered. Comprehensive and complete coverage of information.	Exceptionally good summary of the topic and provides extensive supportive elements to aid the ease of understanding of the audience.	4
Presentation skills	Minimal eye contact focusing on small part of audience. The audience is not engaged. Spoke too quickly or quietly making it difficult to understand. Inappropriate/disinterested body language.	Focuses on only part of the audience. Sporadic eye contact and the audience is distracted. Speaker could be heard by only half of the audience. Body language is distracting.	Speaks to majority of the audience; steady eye contact. The audience is engaged by the presentation. Speaks at a suitable volume with some fidgeting.	Regular/constant eye contact, The audience is engaged, and presenter held the audience's attention. Appropriate speaking volume & body language.	Exceptionally Good presentation skills, excellent audience engagement.	4
